THE SIZE RANGE COVERS ALL SIZES

If you want to do a good job, you need a reasonable equipment. In order to support a worker 100% in his work, workwear has to fit to perfection. Therefore, we have extended our size range.

Now everybody – of athletic build or slim figure, with short or long legs – will find the perfect size.

XS - 6XL

RESPONSIBILITY

SOCIAL COMPLIANCE "BSCI"

www.bsci-intl.org

As members of the 'BSCI/Business Social Compliance Initiative' we commit ourselves to implementing the BSCI code of conduct as part of our business relations with our manufacturers and thus to improving the working conditions within our supply chain and to producing our textiles fairly. This includes our clear commitment to the employees' right to freedom of assembly, protection against discrimination, and an adequate remuneration, that is, at least the statutory national minimum wage. Another central component is the occupational safety regulations. That is how we guarantee that employees do not work more than 48 hours a week and that the occupational safety regulations of the ILO (International Labour Organisation) are met. Child labour, forced labour or precarious jobs are not tolerated. Several social compliance departments in the countries of production test all the factories thoroughly and make sure that these conditions are met.

OEKO-TEX® STANDARD 100

www.oeko-tex.com

This standard guarantees that textile and non-textile product components pose no threat to health.

ADHERENCE TO THE REACH-REGULATIONS

We assure you that when manufacturing our **myrtle beach** products and **JAMES & NICHOLSON** textiles we meet the obligations of the REACH-regulations.

PROTECTION OF THE ENVIRONMENT

All the manufacturing plants of our **myrtle beach** and **JAMES & NICHOLSON** products work on the highest environmental level and pursue the principle of sustainability. For example, all the manufacturing plants dispose of a water purification plant.

QUALITY STANDARD

The merchandise is regularly tested by certified testing institutes in the countries of production regarding the given parameter. Moreover, in cooperation with SGS, Testex, Hohenstein and other renowned institutes the quality is continually controlled.

GOOD DOWN TO THE SMALLEST DETAIL

What we do we do best. We have invested a lot of time, thought and passion into our latest product line. The result is convincing: "Level 2" is a really professional material. Together with craftsmen, the product line has been developed for 100% practical viability, it has been given a sporty touch and has been designed in new colourways. The elastic canvas will always guarantee complete freedom of movement. Important detail: All the zips and buttons are concealed.

TRIED AND TESTED

For many years, our workwear basics collection has been a reliable partner on building sites and in workshops. With insertable knee pads, partial cordura reinforcements and hard-wearing fabrics, it withstands hard work days as easily as washing at 60°C and tumble-drying. Now, the product line includes 5 new complementary models and extended size-breakdowns for all outfits.

"JAMES & NICHOLSON
MEETS MY DEMANDS
ON GOOD WORKWEAR
TO PERFECTION"

I LOVE WHAT I DO

Jens Böhmig, the car restorer from Backnang, strives self-confidently towards the highest international level. In an interview the beetles and racing car fan told us what his work means to him and why for him as a professional workwear can score highly.

Jens, what is your vision?

With my company I would like to play a leading international role in the field of thorough professional restoration (on a national level we have already reached this aim). What I have in mind is the restoration of racing cars. In this sector I would like to be among the best companies in Germany in the future.

What special requirements are there in your job?

My cars are sold due to their top quality and our reliability. We are on schedule, work with an extremely high degree of precision, know a lot of individual and creative solutions and have acquired a detailed and comprehensive knowledge. This is what the customer wants.

Your career

I graduated in engineering and economics, worked as a management consultant, while at the same time practising motor sports. Then I registered a business as a car restorer specialising in VW's of the 50ies and 60ies and racing cars of the 60ies and 70ies.

What induced you to do this particular job?

Since 2011 my job has been my hobby. I do what I love and now I also have more time for my family. You have to decide what is important in life.

What demands do you have on good workwear?

Our product can only be as good as the materials we work with: no cheap machines, no cheap tools, no unskilled workers. The best is just good enough. Disposable products is not what we want. This also goes for clothing. Disposable clothing will e.g. not withstand a grinding machine. I put particular emphasis on washability; button plackets, rivets and zips have to be concealed - Scratches in the paintwork of our vehicles would be disastrous. The workwear of James & Nicholson meets these requirements to perfection.

FELIX BOHNE
FURNITURE
DESIGNER

Felix workwear selection:

JN832
WORKWEAR PANTS

JN838
WORKWEAR T-SHIRT

FURNITURE WITH CHARACTER

Dr. Felix Bohne, the furniture designer from Stuttgart, used to be a biologist. We asked the 43-year-old father of three what was important to him about his job and why he relied on James & Nicholson.

Felix, what is your vision?

A fulfilling work, creating beauty. I want my customers to be happy about my designs and to be able to enjoy them for a long time.

What special requirements are there in your job?

What really counts is to discover the real treasure in a rusty, dented piece of furniture. It is important to master the handicraft steps necessary to reveal this treasure and make it attractive for the customer without the piece of furniture losing its original character.

Your career?

After my apprenticeship as a carpenter, I started studying biology at the university of Constance. I obtained a doctorate at the university of Cologne. From 2007 to 2011 I worked in a postdoctoral position in Barcelona. Then we returned to Stuttgart via Munich. Alongside my job as a biologist I have always been an amateur carpenter.

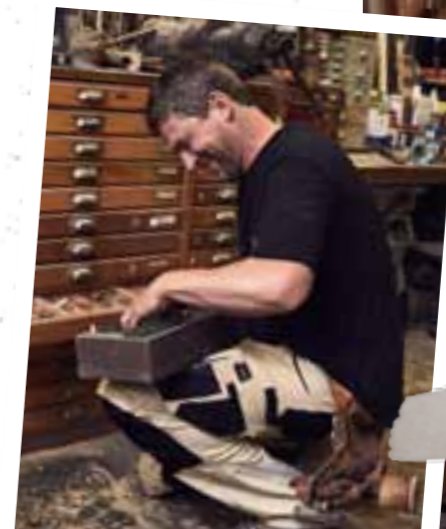

What induced you to do this particular job?

My capacities had been exceeded. I didn't want to act as a global player any more and leave my family alone, but I wanted to live independently. I wanted to go on fewer business trips, I wanted to be my own boss, live my passion and have time for my ideas.

What demands do you have on good workwear?

I move a lot in my job. That is why I attach great importance to a comfortable fit. Moreover, I often deal with rusty, sharp and pointed objects. Therefore, my clothes have to be hard-wearing. I need a lot of pockets for all my bits and bobs, which I always want to have ready to hand. What is also valuable to me: pockets for kneepads.

WORKING TIRELESSLY

Every day, our cotton and poly-collection is useful in companies, catering trade, nursing and surgeries as well as in many other sectors which attach importance to professional team outfits. All the tops are easy-care and durable. After frequent washing, they still convince you with their shape and colour. Moreover, many models are suited for tumble-drying and can be used again within a few hours.

ALWAYS PLAYS IT SAFE

JAMES & NICHOLSON WORKWEAR

CLEVER ACCESSORIES

Caps are all-rounders. They afford protection against sun, cold, dust and rain. They keep the hair out of your face thus giving you more safety and hygiene at work. At the same time, they are very comfortable. Some of our products are even available with light. Trend-oriented, sporty or classic – our myrtle beach caps are available in a great number of shapes and colours.

MB6111 6 PANEL RAVER CAP

- > Classic allround cap in 35 colours
- > 6 embroidered ventilation holes
- > 8 decorative stitching lines on the peak
- > Low- profile
- > Padded satin sweatband
- > Colour black also available in headsize 60 cm
- > Metal buckle in mat silver with press stud and embroidered eyelet
- > Heavy brushed cotton
- > Outer fabric: 100% cotton

SIZE ONE SIZE

MB024 6 PANEL SANDWICH CAP

- > Sandwich cap in a multitude of colour combinations
- > 6 embroidered ventilation holes
- > 6 stitching lines on the peak
- > Front panels laminated
- > satin sweatband
- > Clip fastener with brass buckle and embroidered eyelet
- > Super heavy brushed cotton
- > Outer fabric: 100% cotton

SIZE ONE SIZE

MB6621 6 PANEL WORKWEAR CAP

WASHING (TUB)

The numbers in the tub indicate the maximum washing temperatures which must not be exceeded. The bar below the tub requires a more (mechanical) gentle treatment (e.g. programme for delicate fabrics). It designates washing programmes which are suitable for easy-care and delicate garments. Textiles made of cotton or mixed fibres should be pulled into shape when still wet. We recommend that textiles with prints or embroideries should only be washed on the reverse at a maximum of 40 degrees in order not to impair the quality of the print or embroidery.

95 Normal washing, 95 Delicate washing, 60 Normal washing, 60 Delicate washing, 40 Normal washing, 40 Delicate washing, 40 Specially delicate washing, 30 Delicate washing, Hand wash icon

IRONING (IRON)

The dots indicate the temperature scale of the irons. Textiles with prints or embroideries should only be ironed on the reverse.

Iron at high temperature (max. 200 degrees), Iron at medium temperature (max. 150 degrees), Iron at low temperature (max. 110 degrees), Do not iron

TUMBLE DRYING (TUMBLE-DRIER)

The dots indicate the drying-grades of the tumble-drier. Textiles with transfer prints must not be tumble-dried.

Tumble dry at normal temperature, Tumble dry at low temperature, Do not tumble dry

DRY CLEANING (CLEANING DRUM)

The letters are intended for the textile cleaner. They indicate the possible solvents. The bar below the circle requires cleaning under limited mechanical strain, with a limited amount of moisture and at a medium temperature. Textiles with prints or embroideries should not be dry cleaned.

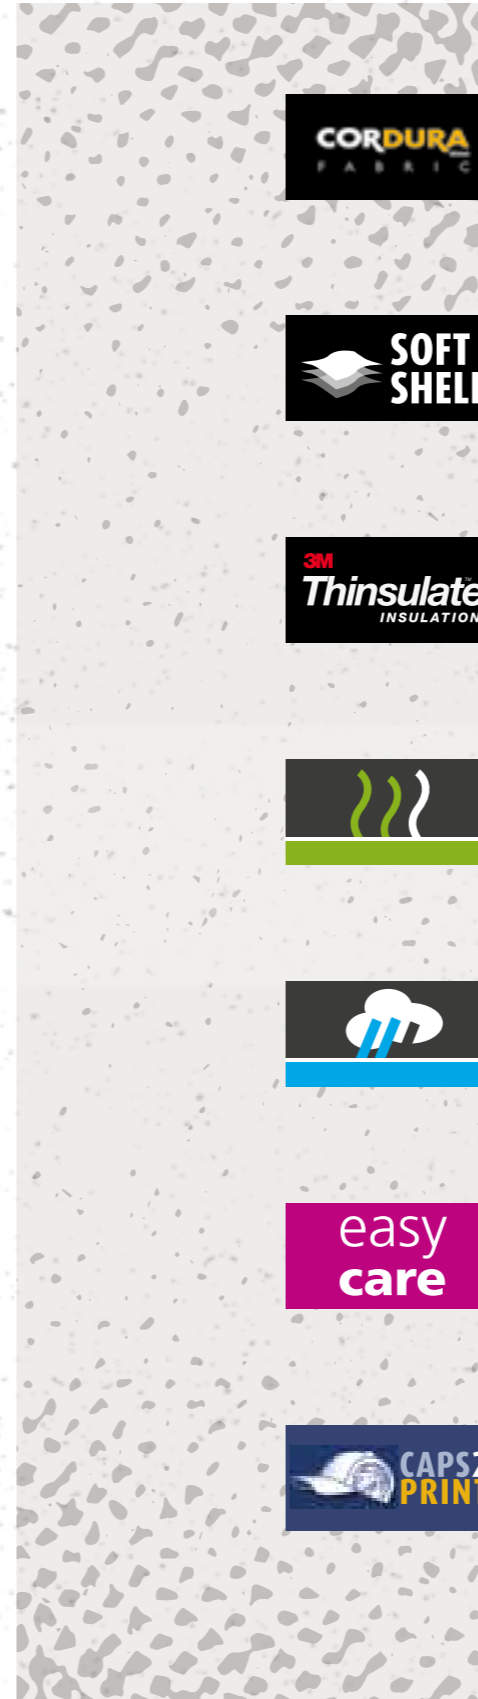

Normal clothes, Delicate clothes, Delicate clothes, Delicate clothes, Wet cleaning, Delicate wet cleaning, Special wet cleaning, No dry cleaning possible

BLEACHING (TRIANGLE)

This symbol shows the textile cleaner whether the garment may be bleached or not.

Chlorine bleaching possible, Only oxygen bleaching No chlorine bleaching, Do not bleach

FUNCTIONS & FEATURES

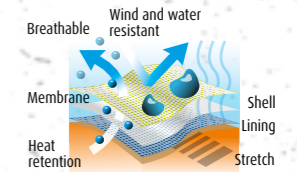

CORDURA®

CORDURA® is a very sturdy, textured polyamide fabric, which is extremely tear- and abrasion-proof. Special yarns, specially developed weaving techniques, dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

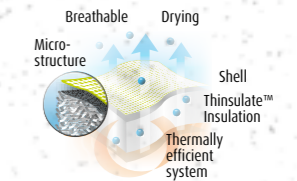

SOFTSHELL

Softshell with TPU membrane consists of three layers. Due to the microporous TPU membrane as middle layer the material is water-proof, wind-proof and breathable at the same time.

THINSULATE™ INSULATION

The light-weight thermal insulation affords optimum protection against cold despite its minimum thickness. It even keeps you warm in damp or wet conditions. Thinsulate™ INSULATION offers excellent comfort and allows optimum room to move. It is extremely breathable, durable and easy-care.

BREATHABILITY / PERMEABILITY TO VAPOUR

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m² within 24 hours. The higher this figure, the more breathable the textile is.

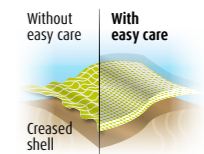

WATER COLUMN

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500 mm.

EASY CARE

This special finish makes shirts and blouses especially easy to iron. To preserve this function the textiles should not be overdried in the tumbler and you should avoid using an overheated iron.

CAPS FOR PRINTING

Caps with this label are ideal for printing and embroidering. The construction of the caps leaves a lot of space so the cap is easy to decorate, with the logo presented to perfection.
